Child Safety During the Summer Months

Summer is a time for school classrooms and hallways to empty and the awaited anticipation of our children's fun and play time. Yet, emergency rooms across the country call summertime 'the trauma season for kids.' From the heat to pools to bike riding, parents need to be on alert..

Tragedies rise and nearly half (40 percent) of all unintentional injury-related deaths occur during the summer months (May to August) because children are supervised less, have more free time and are involved in more outdoor activities. While you relax this summer, summer is not the time to relax about safety. Close supervision, proper protective gear, and other simple prevention steps will help keep your child safe.

Another School Year Comes to an End.

Thank you for another wonderful and productive school year. I can't thank everyone enough for your support of student learning. Special thanks goes out our staff who without their experience, endless energy and devotion none of what has been accomplished over this school year could have happened. They are an incredible group of professionals. Everyone has a safe and happy summer break. Until next school year.

Mr. Malthouse School Principal
